About This Content

Give your city that real “university town” look and feel with a selection of new building spawns designed by **Michael “KingLeno” Warren**. University City adds 36 low-density residential buildings, 32 low-density commercial buildings, and 15 props including commercial signs and logos to reflect the student residents in your neighborhood!

Title: Cities: Skylines - Content Creator Pack: University City

Genre: Simulation, Strategy

Developer:

Michael Warren

Publisher:

Paradox Interactive

Franchise:

Cities: Skylines

Release Date: 21 May, 2019

b4d347fde0

Minimum:

Requires a 64-bit processor and operating system

OS: Microsoft Windows XP/Vista/7/8/8.1 (64-bit)

Processor: Intel Core 2 Duo, 3.0GHz or AMD Athlon 64 X2 6400+, 3.2GHz

Memory: 4 GB RAM

Graphics: nVIDIA GeForce GTX 260, 512 MB or ATI Radeon HD 5670, 512 MB (Does not support Intel Integrated Graphics Cards)

DIRECTX: Version 9.0c

Network: Broadband Internet connection

Storage: 6 GB available space

English, French, German, Polish, Russian, Simplified Chinese, Korean

OH NO! WAS THAT THE SMARTEST THING I COULD COME UP WITH?.. WHAT SHOULD I DO NOW?!

[RETURN](#) | [SAVE](#) | [SKIP](#) | [AUTO](#) | [PREFERENCES](#)

Basic but a fun little intro to VR shooters. Obviously has a couple of faults like the blurriness and inventory system but once you get past that this is a gem of a game and deserves more love. A game in VR that I can't wait to get home from work to play, that's unusual for me.

See video for full review.

https://youtu.be/HewVXu_sCl0

Chapter 2 gameplay:

<https://youtu.be/GkA3zC2HXCA>. Jupiter's Forge is an exciting addition to OWTC. Their official description is very accurate in that it provides a lot of new challenges that you didn't face on Mars or Ceres. The Basalt lakes and new buildings for water and fuel changes how you play compared to the other two planets.

[However, the BEST part is that only the host requires the DLC for everyone to have in on the fun.. It took me a while but i found out in the discussion threads that you can get past the first syren by simply smacking in the head with the axe, thats it just step forward and smack it in the head.](#)

[The enviroments are beatiful and well detailed, it works with touch, has teleport or trackpad locomotion and features a campeign that i have played about an hour and a half of and am only on level 2!](#)

[If you like Alien Isolation like I do then you'll like this, there are bugs but the devs were quick to fix the gamebreaking ones and update the reolution\graphics aswell and will likely continue to work on the game.](#)

[6.5/10 needs a bit of work but its worth its money now and if it continues to get worked on then this could be a VR hit for years to come!](#)

<https://forum.paradoxplaza.com/forum/index.php?threads/is-there-any-plan-to-add-chinese-support-in-ck2%E3%80%81eu4%E3%80%81hoi4-and-stellaris%EF%BC%9F.1077611/>

[Just don't like what AndrewT response in the thread, in most levels that weight cubes are present they aren't even needed and the physics are more frustrating than fun. It's Dies irae.. not recommended at all](#)

[Bought this game because the character is cute, and that's all it got.](#)

[The game itself is extremely short and simple, and the story is dumb and boring.. Retro Rip-off](#)

A brilliant game that has the player work against other companies to gain dominance over the Solar System.. I like the game just sometimes I wish you didn't die as much. The mechanic for North is what made me want to play the game. Check out my Let's play. I don't know if I would recommend Ian's eyes to anyone just yet. https://www.youtube.com/playlist?list=PL-4L-FqPzTC4DJ_j-NgmFZenR9Yq_UyHb. Wonderful immersive game! The voice acting was very good and the story + artwork were interesting enough to keep me delighted throughout the whole thing! The puzzle aspect wasn't too hard, but at times it left me thinking for longer than I'd like to admit. Would definitely play again!. Do not dismiss this as Just Another Match Three game, people! This one is so full of innovation, it's like nothing you've ever played, guaranteed. Tidalis keeps throwing new game-changing elements and mechanics at you till the very end... you know it's a keeper when you get to level 100 and still discover more new and unique features.

Don't think twice, just buy it. You won't regret it, honest.

For outperforming everything else in this genre, I give it four out of four blocks.. Well made game with lots of great music. Hope they make more series like this!. The Midnight Mysteries series contains some of my favorite hidden object games. These are the more typical hybrid type games, that have some adventure elements (puzzles, moving between locations, talking to people) as opposed to the find-objects-only style.

Midnight Mysteries are interesting in that they are based on real historical events, then add some fictional what-ifs to fill in blanks or give alternate explanations for known events. As a result, not only are the fun as a game but they spark some interest in reading about the real events on Wikipedia.

MM3 goes into Mark Twain's past and the story of what happened to his brother. Very interesting stuff.. Lets start this review on Math Fun by getting straight to the point. THIS. GAME. IS. AMAZING. From the amazing detail to all aspects of the game to absolutely GORGEOUS graphics this game is just absolutely amazing and deserves an award due to its amazing gameplay and all the great aspects. When launching the game you are given a great menu that has THREE(!) options for different graphics settings with the resolution going up to 1680 x 1050 (which looks absolutely great and is becoming the new 4K) and the only graphics setting is Normal, which may sound bad and sound like it looks terrible, but compared to AAA games such as Just Cause 4, it is like being in heaven. When the game fully loads, you are greeted to an amazing sound track made by some random artist and it blows games like Undertale out of the water! The games mechanics work great and can be run on low end systems even on full settings at a whopping 1500 fps on even my GTX 1050 Ti. The games levels do challenge you on your math skills to complete levels and earn rewards such as depression and suicidal thoughts, but also give you a sense of doubt of why you spent your money on this steamy pile of elephant faeces (which is the best reward in my opinion and is just so amazing!). The game itself is just absolutely amazing and I simply CANNOT wait to see this game win an award.. A solid rogue-like with an interesting premise and creative mechanics.. I used to play this all the time on PS3 with a friend of mine. It definitely still holds up (even in singleplayer) as a good physics puzzle game, as well as a twinstick shooter. Movement could be considered a bit sluggish, but to me it's not that big of a deal. For its price, I'd say it's worth a purchase even if you have just a slight interest in doing so. You'd be surprised at how addicting it is.. Updates ruined the game. Ubisoft couldnt sell TM Turbo so they tried to bring Turbo to TM2. It was perfect, and you ruined it.

RIP Speed drifting, RIP Trackmania 2
